LABEL PROOFING

Our infrastructure of machines with unique capabilities will support in proofing of your label before it finally hit the market.

Infrastructure includes machines like Heidelberg (Offset proofing), Polar (German cutting machine for precise cutting), Flat bed die punching machine (Capable to handle very short runs for proofing) and many more small machines specially procured to do the proofing of your label.

Dedicated Ink Kitchen will insure that your product reflects the best color appearance. Following effects can be produced in-house even in your (new development for labels) proofing Jobs

LABEL FINISHES:

- Matt
- Semi Glossy
- Glossy

ADHESIVES:

- Hot Melt
- Acrylic

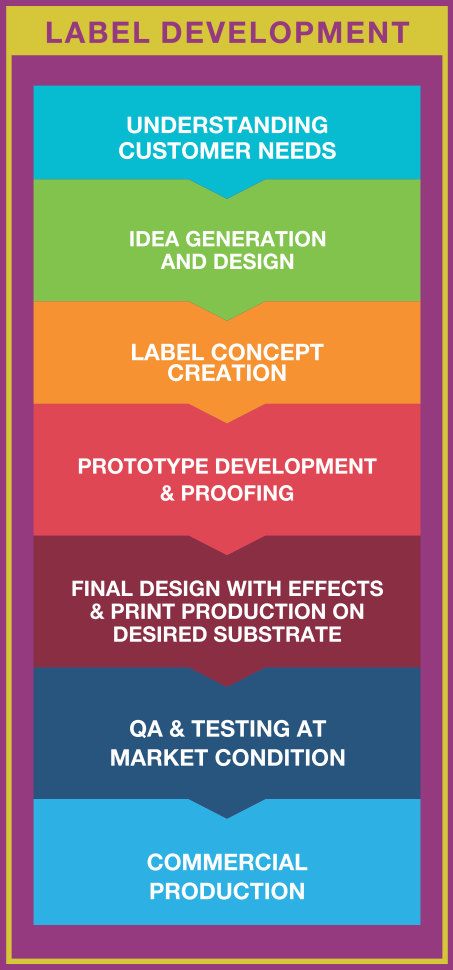

FORMATS:

- Sheet
- Roll Form Labels

LABEL TESTING

Before hitting the final production run you may test the label in different conditions and based on your feed-back and suggestions the label will be produced for best.

LABEL DEVELOPMENT CYCLE AND HAND HOLDING WITH CLIENT
